TH E following Address of the Borough of St. Albans in the County of Hertford, has been presented to His Majesty by William Clayton and William Gore, Esqs; their Representatives in Parliament, introduced by the Right Honourable the Lord Carteret, one of His Majesty's Principal Secretaries of State.

To the King's most Excellent Majesty,
The humble Address of the Justices of the Peace,
Gentlemen, and Inhabitants of the Borough of
St. Albans in the County of Hertford.

Most Dread Sovereign,

AS we have continual Occasions to Commemorate the great Mercy of Almighty God for the Happiness we enjoy under your Majesty's most just and indulgent Government, so we cannot but at this time particularly express our great Sense of the divine Goodness, in the timely Discovery of those traitorous Conspiracies that lately have been formed against your Majesty by those devoted Heads your unparalleled Clemency hath often spared, and invited to return to their Duty, and to receive the abundant Benefit of your Majesty's Fatherly Care and Protection.

'Tis our Happiness and our Joy that the secret Malice and open Rebellions of these ungrateful, weak, and wicked Men, against your Majesty's Reign, serve only to strengthen and confirm your Authority, and to convince the World, that your Majesty and your illustrious Family are the Defenders of our Faith, the Darlings of Heaven, and the immediate Care of Providence.

And with the highest Satisfaction we believe, that notwithstanding the various, illegal, and arbitrary Practices lately made use of in several Cities and Towns of your Kingdom against the Choice of honest and loyal Representatives, your Majesty will meet with a dutiful and well-affected Parliament; and whatever unapproved Persons have been obtruded and imposed and returned as our Representatives, by the Contrivance of those who by an usurped Power have endeavoured to destroy our Liberties and Privileges, we doubt not but it will appear we have duly elected our last Representatives, as those who had approved themselves zealously affected to your Majesty's Person and Government.

May Almighty God, the great Protector of such Princes who are his Vicegerents, continue his Defence of your Majesty and your Royal Family, that no Contrivance may disturb the Tranquility of your Majesty's Reign, or the Right of your Royal Line to the Crown of these Realms.

And permit us, most gracious Sovereign, to declare our unshaken Loyalty and sincere Readiness to sacrifice our Lives and all that is dear to us in Defence of your sacred Person and Government, and in the most humble Manner to subscribe ourselves,

Your Majesty's most loyal
and dutiful Subjects.

Boston, June 4.

The Speech of his Excellency Samuel Shute, Esq; Captain General and Governour in Chief in and over His Majesty's Province of the Massachusetts Bay in New-England, &c. on Thursday the 31st of May, 1722, to the General Assembly of the said Province.

Gentlemen,

I Have lately received from Great Britain, an Act made in the late Session of Parliament for encouraging the raising of Naval Stores, and also for the Preservation of the White Pine Trees in America. As to the first Part of the Act, I question not but you will use your best Endeavours to promote the raising of these Stores, because it will carry a double Advantage with it, which is, that it will be very agreeable to the Court of Great Britain, and will also tend very much to the enriching of this Province. As to the second Part of the Act, I hope every Person in his proper Station will take the utmost Care it be punctually observed, that so this Colony may have the Honour constantly to send home Trees fit for the Masting of his Majesty's Royal Navy.

This is all at present I have to communicate to you, my Packets being lost on board the Ship which was unfortunately burnt at Sea.

Gentlemen,

It will be a great Pleasure to me to see Matters so wisely and prudently managed in this Session, that our Proceedings may render us acceptable to the Government at Home. If you will take this my Advice into your serious Consideration, I flatter my self you will join with me in Opinion, that it will prove the most effectual (and indeed only Means) long to preserve to us those invaluable Blessings and Privileges, which under the kind Influences of our great Master King George at present we so happily enjoy.

Palermo, July 23. The Marquis de Almanara, our Viceroy, has Orders from the Imperial Court to supply the Maltese with Troops. It is reckoned that 7 or 800 Pieces of Cannon are planted about that Island, and that it is victualled for three Years. The four Maltese Gallies that were at Messina have regained their own Port, and took a Turkish Galliot in their Passage with 35 Men on board. Several Ships laden with all Sorts of Provisions are likewise arrived there. It is reported, that the Turkish Fleet has quitted those Seas, and in sailing towards Barbary was dispersed by a Storm.

Genoa, Aug. 3. Letters from Tunis say, that the Algerine Corsairs that are gone from that Port, to the Number of 23, are almost all of them sailed towards the Levant to join the Turkish Fleet. Advices of the 17th past from Alicante say, that the Dutch Squadron has taken in fresh Provisions there, and is sailed towards Algiers; and that the Spanish Fleet was likewise proceeding thither, steering by Majorca.

Turin,

Turin, Aug. 12. The Court still continues at Rivoli in perfect Health; his Majesty and the Prince of Piedmont went Yesterday a Stag-Hunting, and after a Chase of four or five Hours, dined at the Veneria, and returned to Rivoli in the Evening.

Vienna, Aug. 8. Prince Eugene of Savoy returned hither the 6th Instant from Gulderdorf. 'Tis said the Emperour will return shortly to Presbourg, to ratify the Conclusions of the Hungarian States, who are agreed upon settling the Succession of the Crown in favour of the Archduchesses Carolinas; and that in default of their Issue, the Succession is to pass to the Josephine Archduchesses; and after them, to the Leopoldine Archduchesses, according to the Right of Primogeniture: But in case these last happen to leave no Issue, then the States of Hungary are at Liberty to chuse whom they please for their King. Count Daun, Governour of this City, has given Orders for apprehending M. de Freytag, Colonel of the Bareith Regiment of Dragoons, for forcing and wounding a Centinel at the Barrier of Esersdorff. Letters from Warsaw give an Account, that a certain Prince is arrived there Incognito, and that the Partizans of Stanislaus are very busy in recommending his Interests against the approaching Diet.

Hambourg, Aug. 14. Some Days ago a Merchant arrived here by way of Lubeck, having been 14 Days in his Passage from Petersbourg; he reports that the Muscovite Fleet is generally believed not to be designed for any Expedition of Consequence, there not being any Fireship, and but one new raised Regiment embarked, and that those of the Crews consisted of raw unexperienced Men. He adds, that the Caarian Princesses divert themselves in the Country Seats near Petersbourg, and 'twas reported they would set out the Beginning of next Month with Prince Mensikoff for Moscow, to be there against the Time the Czar has ended his Campaign; and that 'tis likely his Caarian Majesty will reside in that Capital the next Winter, to be near at Hand to give Orders to his conquered Places on the Persian Frontiers. Other Letters from Petersbourg say, that the Duke of Holstein's Domesticks who were come thither from Moscow, in Order to go to Germany, have received Orders since to continue at Petersbourg. Advices from Mecklenbourg say, that an Officer sent from the Duke is arrived at Domitz, with Dispatches to the Governour and the Council, containing, as 'tis given out, an Order from the Duke to the Governour and Council, not to receive henceforward, or send to the Duke of Mecklenbourg any Letters from the Subdelegated Commission at Rostock, but to cause the Bearers of such Letters to be acquainted, that the Duke does not own the said Subdelegated Commission, and that the Members which compose it may, if they think fit, send such Letters directly to the Duke as they judge necessary to write.

Hague, Aug. 21. The States of Holland are again assembled in order to resume their Deliberations on the Matters they left undetermined at their last breaking up. The Admiralties are all ordered to attend on the 27th Instant, and that of Zealand has given Notice they will be present with the others. The Minister of Prussia has delivered to the States General a Letter from the King his Master, notifying the Birth of a young Prince. Letters from Moscow say, that both the King of Persia and the Rebels have sent Ambassadors to the Czar for his Assistance.
